

Manage the nomination of speakers and/or advisors to ensure compliance and standard criteria

Profile History
Track NP approval flow with username and time stamp

At-a-Glance
View and sort nominated speakers by name, location, status, and approval date

Thorough Reports
Download .xls files showing speakers in various nomination stages

Easy Access
with secure username and password

enGauge is a customizable suite of unique digital products created to engage healthcare providers as well as gauge their opinions and perceptions. The speaker and advisor **NominationPortal** (NP), as part of this suite, is a centralized platform for Sales, Medical, and Marketing teams to nominate and approve speakers and advisors for upcoming programs. Clients have easy access to the portal in order to manage and oversee all aspects of the nomination process, and much more:

- **Improve operational efficiency** by streamlining the nomination process and eliminating spreadsheets
- **Standardize required fields to improve compliance** in areas such as nomination criteria, annual OIG checks, and up-to-date CVs
- **Automatically generate email communications to the appropriate team** (RD, MS, SRD, Marketing, Business Conduct) once a nominee is approved
- **Around-the-clock access to speakers'/advisors' progress in the nomination system**, with full transparency and accountability
- Enable users to **add commentary to any nomination**, which is made visible to all parties
- Ability to **forward messages to Business Conduct** when there are questions about a nominee

For more information, please contact our sales department at sales@clinicalmind.com.
